Welcome to our Specialty Practice

We are a part of your Patient-Centered Medical Home Neighborhood!

We are partnering with your Primary Care Physician as they build your Medical Home. We are sharing their commitment to effectively and efficiently comanage your care over-time. As your Specialist, we will be sharing limited or long-term management (depending on the nature and impact) of your condition and provide advice, guidance and periodic follow-up until the crisis or treatment has been stabilized or completed.

You may notice that:

- We will be communicating with your Primary Care Physician (PCP) and will be providing timely written reports on our consultations with you to them.
- We will be notifying your PCP of no-shows, cancellations and other actions that may place your care in jeopardy.
- We will be providing future scheduled appointments and treatment plans.
- We will be notifying your PCP of referrals/tesiting needed for other Specialties.

We trust you, our patient, to:

- Keep your appointments as scheduled, or call and let us know when you cannot
- · Learn about your insurance, so you know what it covers
- Learn about wellness and how to prevent disease
- Seek the advice of your PCP before you see other physicians.
- Follow the care plan that is agreed upon-or let us knowwhy
 you cannot so that we can try to help, or change the plan
- See your PCP on an annual basis for all preventive services

A Patient-Centered Medical Home (PCMH) is a system of care in which a team of health professionals' work together to provide all of your health care needs. You, the patient, are the most important part of a patient-centered medical home. When you take an active role in your health and work closely with us, you can be sure that you're getting the care you need.
